PROFILE

A student majoring in information systems who recently completed her bachelor's degree at ITB STIKOM Bali with a GPA of 3.88.

Currently, I work as a coding teacher at Timedoor Academy and freelance in managing website development. As a teacher and freelancer in website development, I have developed my potential in communication with clients such as discussing the desired website, overcoming problem-solving, and maintaining project timelines. Working closely with the team regarding the work process, sometimes I also focus on making system designs, and database designs.

At the moment, I am still improving myself by learning new things, especially in the field of software development, like tried to use another languages, and tools.
